

Annual Quality Congress Post-Conference Event – DRAFT Agenda

Writing for Publication: How to Get Your QI Projects to Press!

October 29, 6:30 to 7:30 PM
October 30, 7:30 – 12:00 Noon

Program Description

As quality improvement and translational science grows and matures the need to publish high quality QI reports increases. This writer’s workshop, led by leading Editors and QI Experts in the field, is designed to enhance your ability to turn a QI abstract into a publishable paper. Many professionals, trained in the research tradition, may benefit from learning about the SQUIRE 2.0 guidelines, and key differences between a QI and research paper. Both individuals, as well as QI teams, are encouraged to come prepared with their abstracts, posters, and data and begin to flesh out their manuscript taking advantage of the expert coaching available. Pre-work will be required.
